

Hello I'm

# Mohammad Baher Karazeh

Mechatronics Enginner And Front End Developer

## Education

---

- The Third Year Of Mechatronics Engineering, Faculty Of Electrical And Electronic Engineering, Aleppo University
- Learn Front-end Development Online From Elzero Web School, FreeCodeCamp, W3School, Sololearn And Others

## Skills

---

- **For Front End Developer**

- |              |             |
|--------------|-------------|
| • Html       | • Css       |
| • JavaScript | • Bootstrap |
| • Scss       | • Git       |

- **For Mechatronics Engineering**

- |   |                                      |
|---|--------------------------------------|
| • Python                                  | • C++                                |
| • Electronics Components                  | • Arduino                            |
| • Proteus Simulation                      | • Iot And Esp32 (Beginner)           |
| • Design Schematic Circuits And Pcb Board | • Classic Control And Plc (Beginner) |

## Projects

---

- **For Front End Developer**

- |   |  |
|---|--|
| • Simple Web Page About Weather<br>Using: Html And Css<br><a href="#">Live View</a>                       | • Web Page For Leon Fake Company<br>Using: Html And Css<br><a href="#">Live View</a>       |
| • Arabic Landing Page For Mobile App<br>Using: Html, Css, Scss And Little Js<br><a href="#">Live View</a> | • Web Page For Fake Company<br>Using: Html, Css And Bootstrap<br><a href="#">Live View</a> |

- **For Mechatronics Engineering**

- |  |   |
|--|---|
| • Robot Controlled In Several Ways Using Arduino | • Line Follower Robot Using Arduino             |
| • Password Door Lock Using Arduino               | • Traffic Light Using Logic Electronics And PCB |
| • Digital Clock Using Arduino                    | • Password Generator Using Python               |

## Soft Skills

---

- Search
- Time Mangment
- Work With Team
- Planning
