Hello I'm

MOHAMMAD BAHER KARAZEH

Mechatronics Enginner And Front End Developer

Education

- The Third Year Of Mechatronics Engineering, Faculty Of Electrical And Electronic Engineering, Aleppo University

- Learn Front-end Development Online From Elzero Web School, FreeCodeCamp, W3School, Sololearn And Others

Skills

For Front End Developer

- Html
- JavaScript
- Scss
- Css
- Bootstrap
- Git

For Mechatronics Engineering

- Python
- Electronics Components
- Proteus Simulation
- Design Schematic Circuits And Pcb Board
- C++
- Arduino
- Iot And Esp32 (Beginner)
- Classic Control And Plc (Beginner)

Projects

For Front End Developer

- Simple Web Page About Weather Using: Html And Css
  Live View

- Web Page For Leon Fake Company Using: Html And Css
  Live View

- Arabic Landing Page For Mobile App Using: Html, Css, Scss And Little Js
  Live View

- Web Page For Fake Company Using: Html, Css And Bootstrap
  Live View

For Mechatronics Engineering

- Robot Controlled In Several Ways (Automatic, Audio, Manual) Using Arduino, Bluetooth Module And Mobile App

- Line Follower Robot Using Arduino

- Password Door Lock Using Arduino

- Traffic Light Using Logic Electronics And PCB

- Digital Clock That Saves The Time When The Power Is Cut Off Using Arduino

- Password Generator Using Python

Soft Skills

- Search

- Time Mangment

- Work With Team

- Planning

Contact Me
